#### **Program Description**

The purpose of this program is to carry out a national telecommunications-based program to improve teaching in core curricular areas. The program is designed to assist elementary and secondary school teachers in preparing all students to achieve challenging state academic content and student academic achievement standards in core curricular areas. The program also authorizes digital education programming grants for the development, distribution, and production of innovative educational video programming.

# **Types of Projects**

This program supports projects that promote online professional development for teachers in core curricular areas.

#### **Education Level (by category)**

K-12, Postsecondary

# **Subject Index**

Curriculum Development, Elementary Secondary Education, Mathematics, Professional Development, Standards, Telecommunications
